Sign this sheet and submit it to the blackboard. No grades will be given until the signed pledge is submitted.

I promise, **on the penalty of failure of CS330**, that all resources I refered to aside from the textbook and the lecture notes will be explicitly cited. Besides, I also promise that, even if I took reference to online materials or discussed with classmates, all work I submit will be written in my own language and will be clearly distinguishable from others' work.

I am aware that the consequence of violating the academic honesty is the failure of the course.
