

Class 02: Mini-Quiz

This mini-quiz tests your knowledge of the course syllabus and unsigned binary integers.

Instructions

Break up into groups (preferably with ≥ 1 wi-fi-enabled laptop), agree on a captain, speaker, recorder, and reflector. Work on the following questions together and come to a group answer. Email your answers to f09cs350@gmail.com.

Questions

1. If you get a zero on Quiz 1, is it still possible to earn an A in this course? Explain briefly.
2. For a homework assignment, is it okay for you to turn in something that's identical to what someone else turned in? Explain briefly.
3. How many 10-bit unsigned binary integers are there?
4. What is the largest 10-bit unsigned binary integer, in binary and in decimal?
