## International Conference on Software Maintenance 2004

Chicago IL USA, 11-17 September 2004 <http://www.cs.iit.edu/~icsm2004>

### ICSM: THE 20TH CONFERENCE

The International Conference on Software Maintenance (ICSM) is the world's major international conference for software and systems maintenance, evolution, and management.

For the 20th ICSM 2004 we invite you to join us in exploring issues related to maintaining, modifying, enhancing, and testing operational systems and designing, building, testing, and evolving maintainable systems.

### SUBMIT TO

<http://www.cs.iit.edu/~icsm2004> > [Submission Information](#).

#### RESEARCH PAPERS (by 15 March 2004)

Original and significant work in the research and practice of software maintenance and evolution.

#### INDUSTRIAL APPLICATIONS (by 30 March 2004)

State-of-the-art descriptions, experience reports, and survey reports from real projects, industrial practices and models, or tool demonstrations.

#### PANELS (by 30 March 2004)

Sessions that serve to stimulate discussion about ideas and issues of importance to the software maintenance community.

#### TOOL EXHIBITIONS (by 30 March 2004)
